

# Humza Malik

## Full Stack Web Developer

Brooklyn, NY | 917-856-8055

Email: [Humza718@gmail.com](mailto:Humza718@gmail.com) | GitHub: [Humza23](#) | Portfolio: [MalikHumza.com](#) | LinkedIn: [Humza Malik](#)

## TECHNICAL SKILLS

---

**Frontend:** React.js, Javascript, HTML, CSS, Redux, Context API, Styled-Components, Bootstrap

**Backend:** Node.js, Express.js, Python, PostgreSQL, SQLite

## PROJECTS

---

### Human Rights First, *Frontend Developer* // [Live Demo](#), [Github Repo](#)

- Collaborated with backend engineers and data scientists to develop an application in React.js and Node.js for lawyers to view data on previous asylum case judgments
- Implemented new features and UI in an Agile environment as envisioned by project managers and stakeholders
- Worked directly with stakeholders and a large team of developers to deliver a product in a timely manner
- Refactored class-based components to functional components allowing for easier testing and debugging

### RealTime Weather, *Frontend Developer* // [Live Demo](#), [Github Repo](#)

- Designed an application allowing users to view weather in current location or location of choice in React.js
- Delivered engaging and visually compelling web designs with user-friendly UI that are cross-browser compatible and mobile responsive
- Utilized Axios as a promise based HTTP client to hit REST endpoints and fetch data into the application.
- Consumed OpenWeatherMap and Geoapify API to provide real-time weather data for inputted locations

### Beach Resort, *Frontend Developer* // [Live Demo](#), [Github Repo](#)

- Partnered with a frontend developer to develop an application for users to view resort rooms in React.js
- Spearheaded the addition of filter functionalities allowing users to filter rooms to accommodate their needs
- Maintained global application state using Context API for easy retrieval of data in deeply nested components
- Directed style implementation to ensure consistent styles across the application and responsiveness across devices

## EXPERIENCE

---

### New York City Department of Education

#### *Paraprofessional*

February 2020 - Present

- Engaged one-on-one with students with behavioral problems in both classroom and extracurricular settings
- Actively developed and executed individualized learning plans and behavior plans for students
- Conducted small group and individual activities based on differentiated learning needs to reinforce concepts
- Sustained transparent communication with parents on student behavior and academic progress

#### *Student Teacher*

September 2019 - February 2020

- Prepared and executed differentiated lesson plans for a classroom of 27 students
- Fostered a classroom environment conducive to learning and promoting excellent student engagement
- Developed plans to facilitate interactive learning experiences and accommodate the academic needs of students
- Established positive relationships with students, parents, teachers, and school administrators

## EDUCATION

---

Lambda School, *Full Stack Web Development*

August 2021

Brooklyn College, *Bachelors of Arts in Childhood Education*

May 2020
