TECHNICAL SKILLS

Frontend: React.js, Javascript, HTML, CSS, Redux, Context API, Styled-Components, Bootstrap
Backend: Node.js, Express.js, Python, PostgreSQL, SQLite

PROJECTS

Human Rights First, *Frontend Developer //* Live Demo, Github Repo
- Collaborated with backend engineers and data scientists to develop an application in React.js and Node.js for lawyers to view data on previous asylum case judgments
- Implemented new features and UI in an Agile environment as envisioned by project managers and stakeholders
- Worked directly with stakeholders and a large team of developers to deliver a product in a timely manner
- Refactored class-based components to functional components allowing for easier testing and debugging

RealTime Weather, *Frontend Developer //* Live Demo, Github Repo
- Designed an application allowing users to view weather in current location or location of choice in React.js
- Delivered engaging and visually compelling web designs with user-friendly UI that are cross-browser compatible and mobile responsive
- Utilized Axios as a promise based HTTP client to hit REST endpoints and fetch data into the application
- Consumed OpenWeatherMap and Geoapify API to provide real-time weather data for inputted locations

Beach Resort, *Frontend Developer //* Live Demo, Github Repo
- Partnered with a frontend developer to develop an application for users to view resort rooms in React.js
- Spearheaded the addition of filter functionalities allowing users to filter rooms to accommodate their needs
- Maintained global application state using Context API for easy retrieval of data in deeply nested components
- Directed style implementation to ensure consistent styles and responsiveness across application and devices

---

EXPERIENCE

New York City Department of Education

Teacher   September 2019 - August 2021
- Prepared and executed differentiated lesson plans for a classroom of 27 students
- Fostered a classroom environment conducive to learning and promoting excellent student engagement
- Developed plans to facilitate interactive learning experiences and accommodate the academic needs of students
- Established positive relationships with students, parents, teachers, and school administrators

Brooklyn College

Accounts Payable Specialist   January 2016 - March 2019
- Processed vouchers in PeopleSoft/Oracle Software called CUNYFirst for Tax Levy accounts
- Ensured payments including invoices and expense reports were processed in a timely and accurate manner
- Created spreadsheets in Microsoft Excel for 50+ accounts to increase payment efficiency
- Communicated with purchasing department and vendor to resolve billing issues and discrepancies
